

Dear Hiring Manager,

I am writing to express my interest in the **Full Stack Developer (.NET & Angular)** position at **Teamified**. I am currently pursuing my **B.Sc. (Hons) in Software Engineering** and have gained practical experience developing web applications using **C#, .NET Core, SQL, and Azure**. I am also actively **learning and strengthening my skills in Angular**, as I'm passionate about becoming a well-rounded full stack developer.

During my internship at the **Ceylon Electricity Board**, I contributed to building and maintaining enterprise-level systems, focusing on clean architecture, API development, and performance optimization. I have experience working in Agile environments, using **Git, CI/CD pipelines, and secure coding practices** to deliver high-quality solutions.

What draws me to this opportunity is the chance to grow within a collaborative and innovation-driven environment that values continuous learning and technical excellence. I am confident that my foundation in .NET, curiosity for modern front-end frameworks, and eagerness to improve will make me a strong contributor to your team.

Please find my **CV attached below** for your consideration. I would appreciate the opportunity to discuss how I can support your client's projects and continue developing my skills under your guidance.

Thank you for your time and consideration.

Sincerely,
Pramodya Warnakula
